

COLLEGE SAVINGS

GIFT ARKANSAS 529

ENTER TO WIN \$529 IN COLLEGE SAVINGS!

JUNE 2015

As educators, you understand the importance of higher learning & skill development for your students. This past spring, the GIFT Arkansas 529 College, Trade & Vocational School Savings Plan launched an exciting 75-county tour to heighten public awareness about the state's college and vocational school savings plan called GIFT AR 529.

To help spread the word about this tax-advantaged savings plan, the GIFT AR 529 Committee is offering a \$529 award in all 75 counties in the state. Residents must be 18 years old to enter, and may enter online at www.arkansas529.org by July 31, 2015 (official rules online).

GIFT Arkansas 529 College, Trade & Vocational School Savings Plans help families save for college or vocational school expenses because the earnings

on the 529 account grow tax-deferred and then become tax-free when used for qualifying higher education expenses. An additional bonus for Arkansas residents is a state income tax deduction (up to \$5,000/individual and \$10,000/couple per year) for their contributions into their 529 college & vocational school investing account.

The thought of paying for college or trade school can be daunting. But it is important to remember to start early and that "every dollar counts!" Open your account today, and allow the earning power of your dollars to work for you. Call Beth Anne Rankin today or go online at www.arkansas529.org for more information or to enter to win \$529 to be deposited in your GIFT Arkansas 529 College Investing Plan account.
